

Uninsured Motorist Settlement

\$898,389.32

Attorney John A. Wolkowski represented an individual who was employed as a salesman for a nationwide company requiring him to travel extensively on the road, upwards of 25% of the time. While the employee was traveling northbound in Hooksett, New Hampshire, he was the unfortunate victim of a hit and run accident that occurred on December 7, 2012. He was sideswiped by a tractor trailer truck on that morning, forcing him off the road, into a ditch, where he sustained serious and permanent personal injuries. He sustained injuries to his back, head, neck, right hip and left knee, along with a concussion and closed head injury. He was diagnosed with suffering post-concussive syndrome and was found to suffer cognitive impairment. He incurred medical expenses of \$175,000.00. He did receive Worker's Compensation benefits and an uninsured claim was resolved through mediation. The gross settlement amount was \$898,389.32 with a full waiver of the Worker's Compensation Lien of \$298,389,032.00 for a net settlement of \$600,000.00.
